m = 281.3 g/m

The rebate profile 8 AL 19" is used for mounting 19" front panels or 19" housings or other surface elements. The mounting parts are fixed using cage nuts that can be ordered separately. These can be inserted into the square breaches of the rebate profile 8 AL 19". Rebate profiles are swiveled into the profile groove and fixed with M6 grub screws. The permissible line load of the rebate profiles 8 AL 19" is 1000 N/m.
