

Standard-fastener 6, galvanized

Reference: ZP6

Material: St
Surface: galvanized
M = 10 Nm
m = 6.5 g

Standard-fasteners enable heavy-duty, right-angled and friction-locked connections. The standard fastener ensures a optimum force transmission and secures the connection against twisting. For assembly a supply hole and a tapped hole in the core hole are required. The special design of the connector breaks the anodized layer and creates a electrically conductive connection.
