

Standard-fastener 8, galvanized

Reference: ZP8

Material: St

Surface: galvanized

M = 25 Nm

m = 11.0 g

Standard-fasteners enable heavy-duty, right-angled and friction-locked connections. The standard fastener ensures a optimum force transmission and secures the connection against twisting. For assembly a supply hole $D = 7.0$ mm and a tapped hole M8 in the core hole are required. The drilling dimension for the required hole is 20.0 mm from the outside of the profile edge.
