DATA SHEET

Standard-fastener 8 one-sided, galvanized

Reference: ZP8-ES

Material: St

Surface: galvanized

Telefon: +49 84 63 603 63-0

Fax: +49 84 63 603 63-11

M = 25 Nmm = 7.0 g

Standard-fasteners enable heavy-duty, right-angled and friction-locked connections. The standard fastener ensures a optimum force transmission and secures the connection against twisting. The one sided variant facilitates the insertion of surface elements as these do not have to be recessed. For assembly a supply hole and a tapped hole in the core hole are required. The special design of the connector breaks the anodized layer and creates a electrically conductive connection.
