

Castor D125, antistatic, black

Reference: BR-D125-A

electrically conductive tires TPE, 90Sh A,
anthracite

Load capacity: 100 kg/castor

Material: Steel sheet housing

Surface: powder coated

Color: jet black RAL 9005

m = 556.0 g

Fixed castors are suitable for use on frames, tables and transport trolleys. They are characterized by good unwinding behavior and a high load-bearing capacity. The tread made of TPE is resistant to most environmental influences. For easier mounting, additional orderable foot plates in different sizes are offered. For use in electronics production, rolls are available in antistatic version. The discharge resistance of the antistatic version is 105 Ω .
