

Standard-fastener 8 ESD, galvanized

Reference: ZP8-ESD

Material: St

Surface: galvanized

M = 25 Nm

m = 11.0 g

Standard-fasteners enable heavy-duty, right-angled and friction-locked connections. The standard fastener ensures a optimum force transmission and secures the connection against twisting. For assembly a supply hole $D = 7.0$ mm and a tapped hole in the core hole M8 are required. The special design of the connector breaks the anodized layer and creates a electrically conductive connection.
