

T-Slot foot 40, black

Reference: NF8-D40

Consists of:

Base body, PA-GF, black

Rubber insert, NBR, black

Load: $F_{\max} = 750 \text{ N}$

$m = 15.0 \text{ g}$

The T-slot foot protects the floor from damage, increases stability and prevents accidental movement. The component can be subsequently swiveled into any series 8 profile groove and fixed without additional machining. T-slot feet are designed for light loads.
