Monitor arm 8, 5 axes, height adjustable

Reference: MA8-5A-75-100

Load: F_{max} = 100 N
m = 2.93 kg

The monitor arm 5 axes, height adjustable, allows to adjust screens optimally. Monitors can be moved and swieled in all dimensions. The function to rotate screens by 90° is also available. The monitor is attached using the standardised VESA connection (VESA 75-100). The monitor arm holds screens of 2-10 kg in the desired position. A mounting adapter designed for profile groove 8 is included.
