

## Monitorarm 8, 5 Achsen, höhenverstellbar

Monitorarm 8, 5 Achsen höhenverstellbar

VESA 75-100

The monitor arm 5 axes, height adjustable, allows to adjust screens optimally. Monitors can be moved and pivoted in all dimensions. The function to rotate screens by 90° is also available. The monitor is attached via the standardised VESA connection (VESA 75-100). The monitor arm holds screens of 2-10 kg in the desired position. A mounting adapter designed for profile groove 8 is included in the scope of delivery.
