

Automatic-fastening set 8, ESD,  
galvanized

Reference: SS-VE8-ESD

Consists of:

Cutting sleeve 8 St, galvanized

Cap screw M6x40 St, galvanized

T-slot nut 8 St M6-with guiding ridge - ESD,  
galvanized

(without cap)

M = 14 Nm

m = 33.0 g

Automatic fasteners are force locked connections with the option of retrofitting and moving profiles. No additional processing is required to install the fastener. Using a leftdrilling hand drill, the connector sleeve is screwed into the face of a profile groove. The thread is self-tapping. The included T-slot nuts St ESD have an upsetting on the top side, which ensures a conductive connection between the basic profile and the attached part.
