

Cable tie block 8 with Velcro tape, black

Reference: KB-8-KB

Consists of:  
Cable ties, PA-GF  
Velcro tape, polypropylene  
Color: black  
m = 10.0 g

The cable tie block 8 with velcro tape is used for easy and safe mounting of cables and hoses. The cable tie block is inserted into the profile groove 8 without an additional fastening element and locked in place with a 90° turn. The velcro tapes used are 200 mm long and can be opened and closed again at any time. Hoses up to a maximum diameter of 50.0 mm can be attached.
