Reference: LR-HF-D80-S

Tires PU, 92 Sh A, yellow Load capacity: 180 kg/castor Consists of: Housing, GD-AI, aluminum-colored, powdercoated m = 2.439 kg

The castor swivel with lifting foot is the perfect solution for anything that has to be moved frequently and still needs to stand securely. The lifting foot is a combination of an adjustable foot with a swivel castor. Frequent movement on industrial floors is possible by mounting a swivel castor with lifting foot without any aids. It is attached to the profile groove 8 using cap screws M8x40 DIN 912 and body washers 8.4x24x3 DIN 522-A. A Fastening set matched to the profile groove 8 is available.
