

Standard-fastening set 12, galvanized

Reference: ZP12-SZ

Consists of:

Standard-fastener 12

Button-head screw ISO 7380-M12x30 with shank

Material: St

Surface: galvanized

M = 80 Nm

m = 64.0 g

Standard-fasteners enable heavy-duty, right-angled and friction-locked connections. The standard fasteners ensure a optimum force transmission and secure the connection against twisting. To mount the standard-fastener 12, an M12x30 thread must be inserted on one side and a supply hole with $D = 11.5$ mm on the groove side. The drilling dimension for the required hole is 30.0 mm from the outside of the profile edge.
