

Cover profile 8 PP, aluminum colored  
stamping (2 meters)

Reference: AP8-PP-AL-GP-S2

Material: PP  
Surface: stamped  
Color: aluminum colored  
Length: 2000 mm  
m = 10.0 g/m

Cover profiles 8 PP are perfectly suited for the subsequent closing of series 8 profile grooves. The surface of the profile is embossed with foil and precisely matched to the anodized color of the profiles. Cover profiles are easy to install and seal the grooves dust-tight. In addition, by closing the grooves, an easy-to-clean surface is obtained. Cover profiles 8 PP are also ideal for protecting and concealing cables or hoses.
