

Roller set for Corner-Fastener 8 32x18

Reference: RS-EV-32x18

Consists of:

Roller, PA-GF, grey

Pressure spring, St

Stop, PA-GF, grey

Cap, PA-GF, grey

m = 12.0 g

By installing roller sets for corner-fastener 8 32x18, easy-running sliding door leaves are created from frames. The roller sets can be inserted into the corner-fastener without additional processing. One roller set is installed per corner-fastener to guide a door leaf. The lower roller sets are installed rigidly and the upper ones spring-loaded. A spring-loaded roller set can be blocked by installing a stop included in the scope of delivery. The spring-loaded rollers allow the installation of door leaves in closed profile frames. A gap of 4.5 mm in total must be provided for the installation of the sliding doors.
