DATA SHEET

Profile 5 20x20, black (3 meters)

Reference: P5-20x20-SCH-S3

Material: Aluminum, EN AW 6063 T66 Surface: Anodizing: A6, C35 - silk matt Color: black max. tensile load groove flanks: 500 N A = 1.8 cm², W_x = 0.73 cm³, W_y = 0.73 cm³, I_x = 0.73 cm⁴, I_y = 0.73 cm⁴, I_t = 0.13 cm⁴ Length: 3000 mm m = 0.498 kg/m

Black anodized profiles impress with their special appearance. The surface is pickled and black (satin matt) anodized (E6, C35). This makes the profiles scratch-resistant and corrosion-protected. The hard anodized coating also ensures a particularly low-burr saw cut. Due to the small design of Profile 5, they are particularly suitable for small and weight-optimized applications. The grooves and core holes are designed for screws of size M3 to M5. Series 5 also focuses on the functionality of the modular principle.
