

Quick - Flat Bracket Set 8 80x40 Al

Reference: QLS8-80x40-AL

Consists of:
Quick-flat bracket set 8 80x40 Al, aluminum-colored coated
Caps, PA-GF, grey
m = 111.1 g

The Quick-flat bracket set 8 is suitable for quick right-angled or parallel connection of two series 8 profiles. Due to a longitudinal or transverse positioning of the pre-assembled magnetic rhombusscrews, the connectors can be inserted and tightened directly in the profile groove. When using this connector no profile machining is required. The open screw points of the connecting plate can be sealed with cover caps included. This improves the appearance and prevents the ingress of dirt.
