

Angle bracket 40x40 Zn, black

Reference: W8-40x40-ZN-S

Material: GD-Zn

Surface: matt painted

Color: jet black similar to RAL 9005

m = 104.5 g

The angle bracket 8 40x40 Zn, black enables a force-locked connection without machining. The angle bracket Zn can be used as additional reinforcement of connections and as a fastening element for various attachments. The angle bracket has integrated anti-twist locks for fixing in the groove, which can be removed if necessary. The black version is visually aligned with black anodized profiles. Furthermore the matt black paint reduces reflections, especially when using camera systems.
