

Endpiece for system handle 8 Al, black

Reference: ENDST-SYG-8

Consists of:

2 end pieces

Material: PA, glass bead reinforced

Color: black

m = 49.5 g

The endpieces for the system handle 8 Al, black, are used to hold the handlebar (d = 30.0 mm) and to attach it to the basic construction. The handle can be screwed from the front using T-slot nuts and screws or from the back using an M8 insert nut. The cavity above the fixing screws can be closed by a [cover cap set](#) which can be ordered separately.
