

Hanger 6-8

Reference: AH6/8-SZ

Consists of:

2 Fixtures, GD-Zn, black

2 Anti-twist locks, GD-Zn, black

Threaded pins DIN 913-M5x10, black

Load: $F_{\max} = 400 \text{ N}$

$m = 68.0 \text{ g}$

The hanger 6-8 is used for fastening series 6 frame elements to series 8 stand profiles. If required the hangers can be connected to each other using the included threaded pin which secures them against being unhinged. The gap dimension between frame and stand profile amounts 25 mm.
