Consists of:

Hinge 5 20x20, GD-Al

2 Fixations, PA-GF, black

Surface: painted

Color: white aluminum RAL 9006

m = 22.0 g

Hinges are suitable for connecting profiles at any angle. They can also be used as heavy hinges. As delivered, a hinge is freely movable. After tightening the clamping screws, it can be used as a rigid angled element. The supplied fixings allow torsion-proof fastening to the profile groove. For connection to the profile groove additional orderable half-round screws ISO 7380 and T-slot nuts are recommended.
