

Slide guide strip 8/8e, black (2 meters)

Reference: GFL-8/8-E-S2

Material: PE-UHMW

Color: black

Length: 2000 mm

m = 260.0 g/m

Sliding guide strips enable the assembly of sliding guides with the help of the profile groove. They can be attached on the moving profile as well as on the fixed profile by grub screws. An offset of 2,0 mm prevents the collision of components.
