

Flexholder 8, black

Reference: FH8-20-30

Consists of:

Base body, PA-GF, black

Flexholder, TPE, black

Cap screw M8x35, St, galvanized

2 Anti-twist locks, PA-GF, black

m = 107.5 g

The flex holder 8 is suitable for holding tools with a diameter of 20 - 30 mm. The rubber band (TPE) used adapts flexibly to different geometries and securely fixes tools. Due to the high static friction of the rubber band, tools with a handle, such as brooms, can be held securely. The component can be rotated 360° and is designed for mounting on profiles of series 8. The scope of delivery includes groove fixings as well as a suitable M8 fastening screw.
