

Table-top side fastening bracket D30 St,
galvanized

Reference: TPE-L-D30

Consists of:

Table top suspension

Lug, St, galvanized

Pan head screw, self drilling, 3,9x16, TX20, St,
galvanized

m = 75.5 g

The table-top side fastening bracket D30 offers the possibility to mount tabletops, shelves or any surface elements. The brackets are mounted in any position on the panels and fixed on the profile tube frame using the self-drilling pan head screws (TX20) included in the scope of delivery. A circumferential gap of 5 mm each must be provided for the surfaces to be inserted.
