

Universal Holder D30, grey

Reference: UVH-D30

Material: PP

Color: traffic grey similar to RAL 7042

m = 1.6 g

The universal holder is the simplest and quickest way to lay cables, hoses or any other lines. The component can be clipped onto profile tubes D30 on any position. There's no additional connection processing required for installation. The universal holder is designed to fix cable ties with a maximum width of 5,0 mm. An internal cross channel ensures secure guidance in the horizontal and vertical installation direction.
