

Label Holder D30-100, transparent

Reference: BSCHP-D30-100-T

Consists of:

Label holder, PVC, transparent

m = 9.5 g

The label holder D30-100 is suitable to attach markings, bar codes or labels clearly visible to profile tubes D30. The labels with maximum width of $B = 100$ mm are protected. They can quickly and permanently be attached by an integrated adhesive strip. The label holder D30 transparent visualizes labels optimally and helps to minimize error rates and to increase productivity.
