

Label Hanger D30-100

Order number: BSCHT-D30-100

Consists of:

Label hanger, PET, transparent
Clip, St, galvanized

m = 19,5 g

The label hanger D30-100 is suitable to attach markings, bar codes or labels clearly visible to profile tubes D30. The labels with maximum width of $B = 100$ mm are protected. They can quickly and safely be attached by a holding clip. To facilitate the insertion of labels, the transparent supports are open at the top and sides. The reusable attachment is just clipped on and does not require any additional screw connection to the profile tube. The practical label hanger D30 visualizes labels perfectly.
