

Thread form-butt fastening set 8,
galvanized

Reference: GFV8-ST-SZ

Consists of:

2 Sleeves 8, St, galvanized

Cap screw M8x60, St, galvanized

2 Caps AK-SS, PA-GF, black

M = 20 Nm

m = 37.5 g

With butt fastening sets two same sized profiles can be assembled at the end faces. It is recommended to always use the connectors in pairs. No additional machining is required to assemble the connector. The connector sleeves are inserted into the slots on the face side. The thread is self-forming and is screwed in clockwise using a hand drill.
