

Slide strip 5 ESD, black (2 meters)

Reference: GL-5-ESD-S2

Surface resistivity  $< 10^6 \text{ Ohm}$

Material: PE-UHMW

Color: black

Load:  $F_{\text{max}} = 2 \text{ N/mm}^2$

Length: 2000 mm

$m = 57.0 \text{ g/m}$

The permanently conductive ESD sliding strip is suitable as a stop bumper or glide bar for goods, small parts containers or workpiece carriers. The strips are clipped directly into the profile groove and are self-locking. The conducting material of the sliding strip prevents electrostatic charging. The special feature of the sliding strip is the wear-resistant surface and the very good sliding properties of the material.
