

Slide strip 8 ESD, black (2 meters)

Reference: GL-8-ESD-S2

Surface resistivity $< 10^3 \text{ Ohm}$

Material: HD-PE

Color: black

Load: $F_{\text{max}} = 2 \text{ N/mm}^2$

Length: 2000 mm

$m = 130.0 \text{ g/m}$

The permanently conductive ESD sliding strip is suitable as a stop bumper or glide bar for goods, small parts containers or workpiece carriers. The strips are clipped directly into the profile groove and are self-locking. The conducting material of the sliding strip prevents electrostatic charging. The special feature of the sliding strip is the wear-resistant surface and the very good sliding properties of the material.
