T-slot nut 5 St 2xM4-20, galvanized

Reference: NS5-2xM4-20

Length: 20.0 mm
Hole spacing: 13.6 mm
Material: St
Surface: galvanized
m = 3.0 g

Double T-slot nuts are preferably used in combination with tapping screws. Furthermore, they can be used to fix a thread in the profile groove using a threaded pin. The T-slot nuts can be swiveled into the profile groove in any position. The T-slot nut is fixed by a spring-loaded ball.
