

Cover- and double-lip seal 8 ESD, black
(2 meters)

Reference: AEP8-S-ESD-S2

Material: PP, conductive

Color: black

c = 4.0 - 5.5 mm

Length: 2000 mm

m = 26.0 g/m

The cover- and-double-lid profile 8 ESD, black is suitable for closing the profile groove against dirt and as an edging profile for securely holding panel elements with a thickness of 4.0 - 5.5 mm. The ESD version is conductive and prevents electrostatic charging of the material.
