The runway profile 8 40x40 enables the simple installation of sliding doors. By using the runway profile, sliding doors run easily, quietly and very reliably. The profile is designed for a maximum door weight of 30 kg. Please note: To ensure safe running, a sliding door must always be guided at the top and bottom. The [Castor rail 8, cover plate 40x40x5](#), which can be ordered separately, can be used as a cap.
