

Hinge leaf profile V8 z light (cut)

Reference: SLP-V8Z-L-Z

Material: Aluminum, EN AW 6063 T66

Surface: anodized, A6, C0

Color: natural color

$A = 2.46 \text{ cm}^2$

Cut max.: 3000 mm

Saw Cut Type B

$m = 0.66 \text{ kg/m}$

Hinge leaf profiles enable the individual design of hinges. The length of the hinge leaves can be freely selected and the gap between the frame and door leaf can be completely closed. M6 countersunk holes can be drilled into the hinge flap profiles. A notch on the back of the hinge marks the position of the fixing hole. The [hinge Al light, bolt set D6](#), which can be ordered separately, can be used as a hinge bolt.
