

T-slot nut 8 St M5 with guiding ridge,
stainless

Reference: NS8-M5-STEGR

Material: Stainless steel (A2)

Surface: bright

m = 10.0 g

T-slot nuts St with guiding ridge for fastening medium-heavy components. The T-slot nuts can be swiveled into the profile groove in any position. The T-slot nut is fixed by a spring-loaded ball. The attached guiding ridge prevents the T-slot nuts from twisting in the profile groove.
