

T-slot nut 8 St M6 with guiding ridge,
stainless

Reference: NS8-M6-STEGR

Material: Stainless steel (A2)

Surface: bright

m = 9.5 g

T-slot nuts St with guiding ridge for fastening medium-heavy components. The T-slot nuts can be swiveled into the profile groove in any position. The T-slot nut is fixed by a spring-loaded ball. The attached guiding ridge prevents the T-slot nuts from twisting in the profile groove.
