## **DATA SHEET**

T-slot nut 8 St M8 with guiding ridge, stainless

Reference: NS8-M8-STEG-R

Material: Stainless steel (A2) Surface: bright m = 9.0 g

T-slot nuts St with guiding ridge for fastening medium-heavy components. The T-slot nuts can be swiveled into the profile groove in any position. The T-slot nut is fixed by a spring-loaded ball. The attached guiding ridge prevents the T-slot nuts from twisting in the profile groove.
