

Conduit profile U 40x40 (cut)

Reference: KP-U-40x40-E-Z

Material: Aluminum, EN AW 6063 T66

Surface: anodized, A6, C0

Color: natural color

$A = 1.7 \text{ cm}^2$

Cut max.: 3000 mm

Saw Cut Type B

$m = 0.46 \text{ kg/m}$

Conduit profiles of the E variant are suitable for the construction of installation ducts and for laying cables and hoses. The U-shaped aluminum profiles have fixed side walls. Furthermore, they have a high inherent stability and offer a visually appealing design. Mounting a cover profile creates two screw channels for fixing and attaching trunking cover caps. By using a suitable cover cap, the associated lid profiles of variant E are secured against accidental opening. Recommended screws for fastening the cover caps in grid dimension 40: [tapping screw DIN 7981 St 4.2x9.5, galvanized](#). The use of a self-tapping screw also ensures an electrically conductive connection.
