

Stand foot 8 240x160, black

Reference: SF-8-240x160-SCH

Material: St

Surface: powder coated

Color: black

m = 1.063 kg

The **stand foot 8 240x160, black** enables robust and cost-effective floor mounting. The stand foot is designed for free-standing protective and partition walls. With this variant, uneven floors can be compensated for up to 20 mm (using a hexagonal screw M8x30) and the inclination of upright profiles can be adjusted by $\pm 5^\circ$. The stand foot can be anchored to the floor with [floor-fastening sets M12x145, galvanized](#) that can be ordered separately. [Button-head screws M8x16, galvanized](#) and [T-slot nuts 8 St M8, galvanized](#) are recommended for fixing the component to the base structure.

Technical specifications:

- **Base plate dimensions:** 240 mm x 44 mm
- **Height:** 160 mm
-

Compatible Series 8 profiles: 40x40 mm, 80x40 mm

Adjustment options:

- **Inclination adjustment:** $\pm 5^\circ$, enables flexible adaptation to uneven surfaces
- **Height adjustment:** +20 mm, by inserting a hexagon head screw into a core hole in the profile upright

Floor mounting:

- Holds **up to two floor mounting sets** (to be ordered separately)
- Maximum mounting size: M12, [floor mounting set M12x145, galvanized](#) is recommended

Advantages:

- **High stability** by solid design and large-area floor connection making it suitable for free-standing structures
- **Space-saving design**, optimizes the floor storage space
- **Flexible alignment** thanks to adjustable inclination and height
- **Easy installation** thanks to integrated adjustment features and standardized mounting
