

Cup holder 8 ESD, black

Reference: BH-8-ESD

Consists of:

Cup

Holder

Material: PA-GF

Color: black

m = 159.0 g

Cup holders are designed to safely hold bottles, cans or cups. To attach them two countersunk screws M5 and two T-slot nuts M5 are necessary. The cup can be removed at any time. The ESD version is conductive and prevents electrostatic charging of the material.
