

T-slot slider 8 80x40 with excentric lever

Reference: GSF8-80x40-EH

Consists of:

Sliding carriage, GD-Zn, galvanized

2 Sliding elements, POM

T-slot nut 8 St M6 heavy/short, galvanized

Eccentric lever with thrust washer

2 Fastening Sets floating bearing

Load: $F_{\max} = 50 \text{ N}$

$m = 155.0 \text{ g}$

The T-slot slider 8 80x40 with excentric lever is suitable for use with robust and smooth-running guides along the profile groove. The metal slide carrier can be loaded with up to 50 N per slide. The excentric lever enables easy and safe clamping of the guide. The slide carrier is attached to the profile groove using the included fastening sets.
