

Ball castor insert D16 ESD, black

Reference: KRE-ESD-S

Consists of:

Housing, PA6.6-CF15, black

Ball, stainless steel

Ball housing, St, galvanized

m = 72.5 g

The preassembled ball castor insert ESD (electrostatically conductive) has a low-wear and low-friction ball caster unit $D = 16.0$ mm. It enables flexible movement in two dimensions, e.g. in switches or locks. The installation length of the ball castor inserts is 50 mm each. The housing color is black for all inserts.
