

Angle clamp bracket 8

Reference: KW-8

Consists of:

Angle clamp bracket 8, GD-Zn

T-slot nut 8 St M8, galvanized

Hexagon socket button screw with flange

M8x18, St, galvanized

Material: GD-Zn

Surface: painted

Color: white aluminum RAL 9006

m = 120.0 g

Angle clamp brackets allow a simple connection of two intersecting profiles. They are particularly suitable for table trays which need to be adjusted both position, height and inclination. By loosening the fixing screw, the connection becomes freely movable.
