

Bracket 8 120x40, black

Reference: LCH8-120x40

Material: St

Surface: powder coated

Color: black

m = 175.5 g

The bracket 8 120x40 is a stable fastening element made of steel. With three fixing holes, it offers the possibility of connecting several profiles or other attachments to each other or mutual. For fixing to the profile groove, the separately orderable [fastening set for bracket / lug](#) can be used.
