

Castor D125 swivel, double-brake, heavy

Reference: LR-D125-DFS-S

Tires PU, 92 Sh A, light brown
Load capacity: 550 kg/castor
Material: Steel sheet housing
Surface: galvanized
m = 3.356 kg

The castor D125 swivel with double-brake, heavy is a lockable, high-quality, heavy-duty transport castor with ball bearings. The roller housing and the integrated mounting plate are made of galvanized steel. The maximum screw size for fixing at the profile groove is M10. The tread made of high-quality polyurethane elastomer offers quiet running and low rolling resistance. In addition, the PU tread is floor gentle and abrasion-resistant. The wheel body is made of grey cast iron and is painted anthracite.
