

Multiblock 8 PA, M6 with safety mounting,
black

Reference: MB8-PA-M6-SB

Consists of:

Multiblock 8 PA, M6, PA-GF, black

Fastening screw M6x22 St, galvanized

Square nut DIN 557-M6, St, galvanized

Captive washer M6 PA-GF, black

Load: $F_{\max} = 250 \text{ N}$

$m = 20.5 \text{ g}$

The Multiblock 8 PA with safety mounting is a surface mounting according to the regulations of the Machinery Directive 2006/42/EC. The safety mounting and the panel element form an inseparable unit after installation. After loosening the screw connection, the fastening screw remains securely in the hole of the panel element due to the captive washer. The Multiblock is suitable for a surface thickness of 3 to 8 mm.
