

Multiblock 8 Zn

Reference: MB8-ZN-M6

Consists of:

Base body and notch, GD-Zn, black powder coated

Square nut DIN 557-M6, St, galvanized

Captive washer, PA, bright

Load: $F_{\max} = 1000 \text{ N}$

$m = 68.5 \text{ g}$

The multiblock 8 Zn is used to attach surfaces to the profile groove. The Zn variant is designed for high loads up to $F_{\max} = 1000 \text{ N}$. The Multiblock Zn is attached to the profile groove by [button-head screw M8x18](#) and [T-slot nut 8 St M8](#). The supplied notch allows different installation heights. A through-hole or square nut is optionally available for fastening the panel element.
