

T-slot nut 5 St M4 with guiding ridge,  
galvanized

Reference: NS5-M4-STEG

Material: St  
Surface: galvanized  
m = 2.0 g

T-slot nuts St with guiding ridge for fastening medium-heavy components. The T-slot nuts can be swiveled into the profile groove in any position. The T-slot nut is fixed by a spring-loaded ball. The attached guiding ridge prevents the T-slot nuts from twisting in the profile groove.
