

T-slot nut 5 St M5 with guiding ridge,
galvanized

Reference: NS5-M5-STEG

Material: St
Surface: galvanized
m = 1.8 g

T-slot nuts St with guiding ridge for fastening medium-heavy components. The T-slot nuts can be swiveled into the profile groove in any position. The T-slot nut is fixed by a spring-loaded ball. The attached guiding ridge prevents the T-slot nuts from twisting in the profile groove.
