

T-slot nut 8 St M6 with guiding ridge,
galvanized

Reference: NS8-M6-STEG

Material: St
Surface: galvanized
m = 10.5 g

T-slot nuts St with guiding ridge for fastening medium-heavy components. The T-slot nuts can be swiveled into the profile groove in any position. The T-slot nut is fixed by a spring-loaded ball. The attached guiding ridge prevents the T-slot nuts from twisting in the profile groove.
